The Honorable Dianne Feinstein
US Senator for California
331 Senate Hart Building
Washington, DC 20510-0504

Attention: Kathy Lacey
Re: Mineral King area problems

Dear Senator Feinstein:

I want to thank you and your staff for your interest in eliminating the eviction clause pertaining to permittees in the Mineral King area of Sequoia National Park. I also hope you will introduce legislation this session to assure that the cabin permits be renewed.

My parents have had a cabin at Mineral King for many years. They have made the cabin available to many groups, as well as family members over the years. Now, because of the fact that my parents were not notified by the Forest Service prior to Mineral King becoming part of Sequoia Park, that they could transfer the ownership of the cabin, the lot, which was offered by the Forest Service as a cabin site in the 1920s, will revert to Sequoia Park and the cabin will have to be removed when my parents pass away. My parents' cabin has been classified as a historic structure and it seems unfair for it to have to be destroyed. Cabins have been a part of Mineral King throughout its history. I hope something can be done to remedy this situation.

Thank you for the excellent job you are doing in the Senate. I appreciate the active part you are playing for the people of California.

Sincerely,

2023.009.0528
